## 2002 - 2022: WHERE DID THE MONEY GO - INTERVENTION AREAS

### PRIMARY PREVENTION PROJECTS

address the determinants of health and diabetes risk factors

24%

68%

8%

**ADVOCACY PLATFORMS** raise the priority of NCD prevention and control within global, regional and national agendas

**CARE PROJECTS** strengthen national health systems to sustainably improve diabetes care and prevent diabetes complications via integrated care

## 2002 – 2022: REGIONAL DISTRIBUTION

WDF has partners in more than 100 countries, and at all levels – from grassroots organisations to national, regional and global entities.

WDF supports projects that are demand-driven, locally formulated and owned, and integrated into existing health systems where possible.

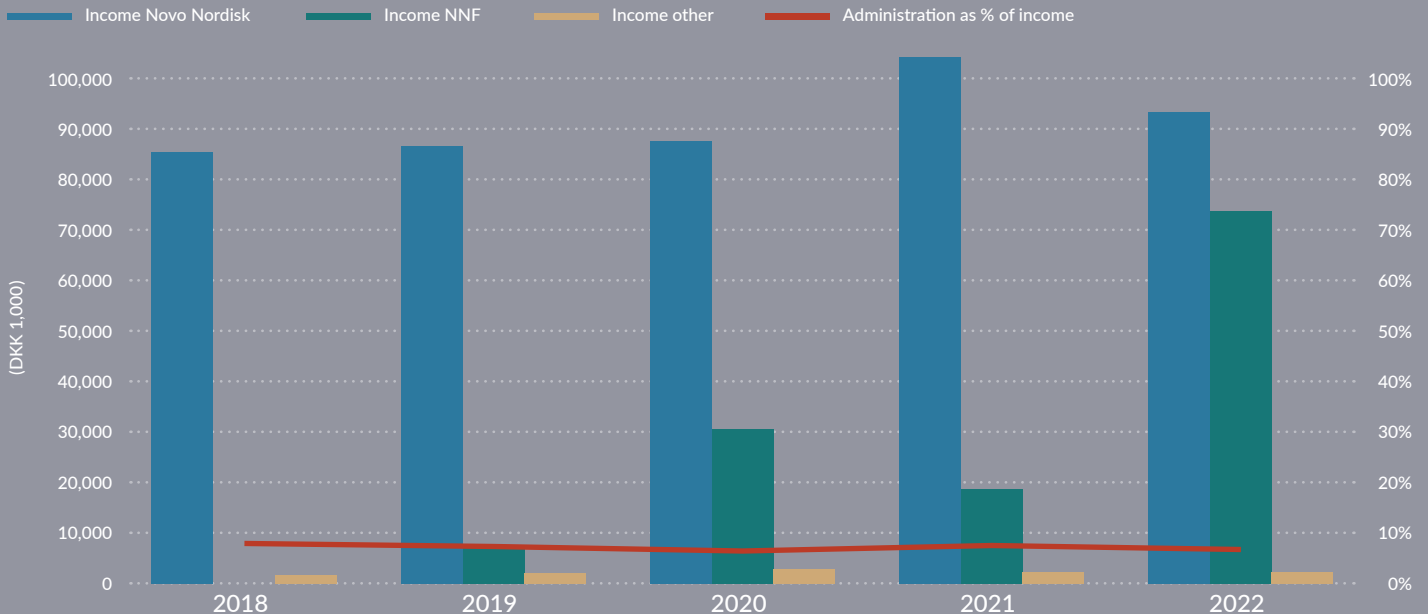

For every euro provided by WDF, project partners raise approximately 2 euros in cash or as in-kind donations from other sources.

For more detail about individual WDF-supported projects, as well as distributions to intervention areas and regions, visit [worlddiabetesfoundation.org](http://worlddiabetesfoundation.org)

\*The relatively large share of funding to Africa reflects WDF's poverty focus.

## 2018 – 2022: INCOME AND ADMINISTRATIVE EXPENSES PERCENTAGE

WDF was founded in 2002 as an independent foundation by Novo Nordisk A/S, and today is a leading global funder of diabetes prevention and care projects in low- and middle-income countries.

From 2002 to 2022, the WDF provided **197.7 million euros** in funding to **595 projects** in **119 countries**
